SLEEP METHODS MANUAL

By Carolina Romanyuk

There are three main techniques that parents can use to help their baby to sleep. This chapter will describe the three techniques and give examples of how to use them.

1. MODERN TO SLEEP (Regressing)
   - To gradually eliminate the need for soothing, you can:
     - Praise the baby for being calm and keep them in their crib.
     - Start by soothing the baby for 5 minutes and gradually reduce the time.
     - Gradually increase the time your baby is allowed to sleep on their own.

   This technique is often used when the baby is over 3 months old and is not yet ready for the transition to sleeping independently.

2. STRATEGY (Training)
   - This method is often used for babies who have been co-sleeping for too long.
   - Start by placing the baby in their crib at bedtime and soothe them until they fall asleep.
   - Gradually increase the time your baby is allowed to sleep on their own.

3. CRIB TO SLEEP (Gradual)"

WoodBows employees are dedicative and hard working. My dedicated virtual employee Mr. Mithun never missed a call from me and always finishes his job ahead of our deadline. I have been a WoodBows' client for a long-time and continue to be one. I am so pleased to give this testimonial about WoodBows.

Horatio Franco, Owner

My virtual assistant put so much of extra work beyond his schedule. I offered to pay extra for their services and they never accepted it once. It's rare to see such people these days. Their service and quality of work are excellent and that's very valuable to us.

About Us

We are fired up about welcoming you to our WoodBows’ family.

This is John, I gave my heart to Christ when I was 27 in the USA. I hold an engineering graduate degree from the University of Houston, Texas, USA.

Having come to the USA from India, I saw a huge difference between India and USA. In USA, entrepreneurs and businesses are struggling to get talents to work for them whereas, in India, some of the best talents and engineers have been looking for jobs for several years. I thought of bridging both of them together.

Having built five businesses from the ground up and being an entrepreneur myself, I can absolutely understand how it feels like to manage the time.

All of our workers are engineering graduates with excellent English fluency and reliable professionals.

Our aim is to help you as much as possible to grow your business and save time.

- John
